MEMORANDUM FOR ALL PERSONNEL

FROM : 
THE MANAGER
 Administrative Services Department

SUBJECT : **IATF'S PILOT IMPLEMENTATION OF COVID-19 ALERT LEVEL SYSTEMS**

DATE : **16 SEPTEMBER 2021**

Anent the IATF's pilot implementation of COVID-19 Alert Level Systems in the NCR, be informed that we are under **GCQ Alert Level 4** from 16-30 September 2021.

In view of the guidelines under Alert Level 4, **our work schedule/arrangement in the TIEZA Main Office will still be on STATUS QUO until such time that the IATF modifies the NCR's alert level.**

With the IATF's new Alert Level System, community quarantine is reduced to either Enhanced Community Quarantine (ECQ) or General Community Quarantine (GCQ):

- **The GCQ classification ranges from Alert Level 1 to 4; and**
- **The ECQ classification for Alert Level 5.**

Also, everyone is advised to remain updated on their respective LGU announcements since LGUs may declare granular lockdowns for areas identified as "critical zones" regardless of alert levels.

Attached is an infographic guide on the implementation of the new COVID-19 Alert Levels in NCR. Also, a copy of the IATF guidelines can be accessed through this link: [Finalized Guidelines for Pilot Areas \(officialgazette.gov.ph\)](https://officialgazette.gov.ph/2021/09/16/finalized-guidelines-for-pilot-areas/)

Given the IATF's new alert level guidelines, all are enjoined to proactively advocate the 3C's strategy (i.e. closed, crowded and close contact) against COVID-19 to prevent its further transmission.

Let us all continue to be safe and follow the minimum health protocols while in the workplace.

For your information and guidance.
